Communication	Makes eye contact
& Language:	1-2 minute attention span
Listening &	Starts to coo and smile – repeat the sounds that the child makes
Understanding	Bonds with caregiver – touching and holding child is important
	Basic needs need to be met - feeding, touching
	Cries as their way of communicating
Communication	Tracks visually & making eye contact
& Language:	1-2 minute attention span
Early Literacy	Starts to coo and smile (repeat the sounds that the child makes)
Thinking Skills	See Physical Development: Sensory Learning
& Cognitive	
Development:	
Mathematics &	
Numeracy	
4 0	
4 – 6 months	lec't-lec d-
Physical	Imitates sounds
Development:	Begins to recognize their name when spoken
Sensory	Discovers their body parts
	Shows emotion – crying when important person leaves
	Uses hands – passing back and forth
	Starts to see colors, shapes, patterns, pictures – loves flashing lights
	Turns toward a sound and looks for its source.
Physical	Eats to fullness
Development:	Responds to regular daily routines (diaper change, feeding)
Health and	
Physical Well-	
Being	
Physical	Rolls over
Development:	Sits with support
Large muscle	Bears weight on legs
	Scoots and bounces
Physical	Passes object from one hand to another
Development:	Reaches for object with one hand (using a raking motion)
Small muscle	
Emotional	Imitates sounds
Development: Attachment	Begins to recognize their name when spoken
Allaciineni	Shows emotion – crying when important person leaves Plays independently
Emotional	Begins to recognize their name
Development:	Discovers their body parts
Sense of self	Looks at self in mirror
Emotional	Consistent schedule
Development:	Calms self with a self-soothing technique (pacifier)
Mutual and Self	Same sen war a sen sooning tearnique (pacifier)
Regulation	
regulation	

Emotional	Uses different cries for different needs
Development:	Cries when a familiar person leaves
Emotions of	
self and others	
Social	Responds to another baby crying
Development:	Recognizes own name
Social	Imitates sounds
Interaction with	Cries when important person leaves
adults & peers	Matches facial expressions
	Plays independently
Communication	Imitates sounds
& Language:	Begins to recognize their name when spoken
Listening &	Shows emotion – crying when important person leaves
Understanding	
Communication	Imitating sounds
& Language:	Begins to recognize their name when spoken
Early Literacy	Uses hands – developing fine motor skills
	Starting to see colors, shapes, patterns, pictures – loves flashing lights
Thinking Skills	See Physical Development: Sensory Learning
& Cognitive	
Development:
